

SCANNA 10 AND 16 HANDHELD METAL DETECTORS

SCANNA 10 HAND HELD METAL DETECTOR

SCANNA 16 HAND HELD METAL DETECTOR

This new range of lightweight handheld metal detectors are suitable for tough environments and constant use and offer increasing sensitivity levels to meet specific customer applications.

Suitable for use by all security personnel in airports, prisons, exhibitions / conferences, high security buildings, hospitals, retail outlets and night clubs.

All models have both visual and audio alarms and incorporate linear detection technology enabling all metals, whether ferrous or non ferrous to be detected.

We also offer a Model 11 which has an additional switch to allow discreet silent operation if required and the model 18 which can detect a 4mm length of 20swg wire.
